

Think a 4-year college degree is your only option for a great career?

THINK AGAIN!

In the service industry, you can start work sooner, earn great pay earlier, and pay less for education! Home and commercial service technicians earn good pay and average a much smaller student debt.

Average salary* starts at:

- Plumber: \$50,000
- Electrician: \$50,000
- HVAC technician: \$44,000

Need a career right now—not in four years?

WE'VE GOT THE ANSWER!

You can find jobs that require limited training in the plumbing, HVAC and electrical service industries through an apprenticeship. Get to work sooner and learn while getting paid!

The service industry always has a need for talented, hard-working technicians who work in residential and commercial repair and replacement.

If you like to work with your hands but also like to engage with other people, this is your career!
